DIARY NOTES

25X1A DD/S

27 August 1957

25X1A9a 1. Met with Messrs. [redacted] of the Technical Services Staff, and with Shef Edwards and [redacted], Office of Security, to discuss the audio-surveillance program. It was finally agreed that they would conduct another meeting at which the Security representatives would outline their requirements more specifically and the Technical Services Staff would make available all of the information which it had in this field; a decision would then be made as to whether or not we needed an external contract with [redacted] or someone else. The TSS representatives were anything but enthusiastic about giving this assistance to the Office of Security and took the position that they had no obligation to do work for anyone except the Clandestine Services unless other components requiring service supplied funds, etc. I emphasized to them that I agreed one hundred per cent with this concept and that I proposed to discuss it with [redacted] and General Cabell but that in any case the question of where funds were coming from was not an issue at the moment. I said that the first thing to do was to decide how we could best accomplish our objective and where it fitted into the over-all priority list. I left no doubt in anyone's mind that it was my view and General Cabell's that the Technical Services Staff should supply the technical knowledge necessary to carry on this program either from within or without their shop. I reported later to General Cabell on this meeting and he said to let him know if the Technical Services Staff failed in any way to provide the necessary assistance. 25X1A9a 25X1A5a1 25X1A9a
